

Fiddler_interface

The screenshot displays the Fiddler Everywhere web interface. The top navigation bar includes the Fiddler logo, a 'BUY NOW' button, a trial status indicator ('10 days remaining'), and user profile information for 'Maxim Yeliseyev'. The main interface is divided into three primary sections:

- Sessions List (Left):** A table listing captured HTTP sessions. The columns are '#', 'URL', 'HTTP Version', and 'Status Code'. The list contains 20 entries, all with a status code of 200 and URLs pointing to 'https://www.notion.so/api/v3/teV1'.
- Request Details (Right):** A detailed view of a selected request (ID 10247). It shows the request headers, including 'Host: yastatic.net', 'Connection: keep-alive', 'sec-ch-ua: "Google Chrome";v="107", "Chromium";v="107"', 'sec-ch-ua-mobile: 70', 'User-Agent: Mozilla/5.0 (Macintosh; Intel Mac OS X 10_15_7) ...', 'sec-ch-ua-platform: "macOS"', 'Accept: application/signed-exchange;v=b3;q=0.7,*/*;q=...', 'Purpose: prefetch', and 'Sec-Fetch-Site: cross-site'.
- Response Details (Right):** A detailed view of the selected request's response (ID 10247). It shows the response headers, including 'Content-Type: application/javascript', 'Content-Length: 276 KB', and 'HTTP/1.1 200 OK'. The response body contains a large block of JavaScript code, including a function definition for 'mouse_tracking' and a call to 'window.setTimeout'.

The interface also features a 'Composer' tab for creating new requests and a 'My Resources' section at the bottom left.
